Re: Prof. Vladimir Vinnitsky

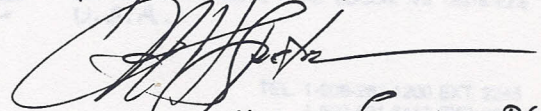

Dear Friends,

I have known Dr. Vinnitsky personally for more than 10 years, and I have closely followed his scientific work for at least twice that time.

Not only is he a brilliant research scientist but he is one of the very few investigators in the world with a thorough training and expertise in neuroscience, immunology and pathology. He has applied this knowledge with exceptional ingenuity to problems in oncology and neuroimmunomodulation. He was twice selected as an invited lecturer at the highly prestigious Stromboli Conferences on Aging and Cancer (1987 and 1993): these conferences are restricted to only about 35 participants from all over the world. I have heard him lecture (in English): his exposition is lucid and invariably scientifically correct.

He is certainly one of the best candidates for a "green card" that I have ever encountered, and I support his application without reservation. Our Country is lucky to have him.

Very sincerely

Novera Herbert Spector, Ph.D.

P.S. Attached is a brief list of some of my credentials. For further information, I can be reached at (205) 822-1822 from 28 July to 6 August, and at (619) 729-5030 after 6 August.
